

Customer Wishlist API Documentation

Base URL:	https://your-domain.com/api/customers
Authentication:	Required (Bearer Token / Session Cookie via isAuthenticated middleware)

1. Get Logged-in User Wishlist

GET	/me/wishlist
-----	--------------

Logged-in user ki wishlist ke saare saved products fetch karne ke liye.

Headers:

```
{
  "Authorization": "Bearer <user_token>",
  "Content-Type": "application/json"
}
```

Success Response (200 OK):

```
{
  "success": true,
  "count": 1,
  "data": [
    {
      "_id": "66f1a8b9c21e4a0012a89012",
      "user": "66f1a8b9c21e4a0012a89000",
      "product": {
        "_id": "66f1a8b9c21e4a0012a89999",
        "title": "Unstitched Linen 3-Piece",
        "price": 4500,
        "images": ["https://example.com/image1.jpg"]
      },
      "createdAt": "2026-09-23T10:00:00.000Z"
    }
  ]
}
```

2. Toggle Wishlist Item (Add / Remove)

POST	/me/wishlist/toggle
------	---------------------

Product ko wishlist mein add ya remove karne ke liye. (Exist karta hai toh remove, nahi toh add ho jayega).

Request Body:

```
{
  "productId": "66f1a8b9c21e4a0012a89999"
}
```

Response — Item Added (201 Created):

```
{
  "success": true,
  "isWishlisted": true,
  "message": "Product added to wishlist",
  "data": {
    "_id": "66f1a8b9c21e4a0012a89012",
    "user": "66f1a8b9c21e4a0012a89000",
    "product": "66f1a8b9c21e4a0012a89999"
  }
}
```

Response — Item Removed (200 OK):

```
{
  "success": true,
  "isWishlisted": false,
}
```

```
{
  "message": "Product removed from wishlist"
}
```

3. Remove Single Item from Wishlist

DELETE	/me/wishlist/item/:productId
---------------	-------------------------------------

Direct product ID paas karke wishlist item remove karne ke liye.

Success Response (200 OK):

```
{
  "success": true,
  "message": "Product removed from wishlist"
}
```

4. Clear Entire Wishlist

DELETE	/me/wishlist/clear
---------------	---------------------------

User ki पूरी wishlist ek saath clear karne ke liye.

Success Response (200 OK):

```
{
  "success": true,
  "message": "Wishlist cleared successfully"
}
```

App Developer Integration Notes

- Heart icon press hone par POST /me/wishlist/toggle API trigger karein.
- Response ke iswishlisted (boolean) ke basis par UI heart solid/outline update karein.
- Har request mein Auth Token pass hona mandatory hai.
