

OGAGLOW API Documentation

Remaining

1. Create Review

Endpoint Details

- **URL Path:** /ogaglow/reviews/create
- **HTTP Method:** POST
- **Content-Type:** application/json

Request Body Payload

Client/App se ye JSON body pass karni hogi:

```
{
  "productId": "66a12345bc67890123456789",
  "customerName": "John Doe",
  "customerEmail": "john@example.com",
  "rating": 5,
  "comment": "Great product! Highly recommended."
}
```

Payload Schema

Field	Type	Required	Description
productId	String	Yes	Target product ki Unique ID (MongoDB ObjectId)
customerName	String	Yes	Review dene wale

Field	Type	Required	Description
			user ka full name
customerEmail	String	Yes	User ka email address
rating	Number	Yes	Numeric rating value (e.g., 1 to 5)
comment	String	Yes	User review text/feedback

Expected API Responses

Success Response (201 Created / 200 OK)

```
{
  "success": true,
  "message": "Review created successfully",
  "data": {
    "_id": "66b98765dc43210987654321",
    "productId": "66a12345bc67890123456789",
    "customerName": "John Doe",
    "customerEmail": "john@example.com",
    "rating": 5,
    "comment": "Great product! Highly recommended.",
    "createdAt": "2026-07-25T14:30:00.000Z"
  }
}
```

Error Responses

400 Bad Request (Validation failure or missing required fields)

```
{
  "success": false,
  "message": "All fields (productId, customerName, customerEmail, rating, comment) are
```

```
required."
}
```

500 Internal Server Error (Server issues)

```
{
  "success": false,
  "message": "Internal server error"
}
```

2. Get Reviews by Product ID

Endpoint Details

- **URL Path:** /ogaglow/reviews/product/{id}
- **HTTP Method:** GET
- **URL Parameters:** id (String, Required): Specific product ki Mongo ID (e.g., 6a61efab3567d85366d13c5a)

Request Headers

- **Content-Type:** application/json

Response Structure

Success Response (200 OK)

```
{
  "success": true,
  "count": 1,
  "data": [
    {
      "_id": "6a64cb962e4cd55acf74ca8c",
      "productId": "6a61efab3567d85366d13c5a",
      "customerName": "mahnoor",
      "customerEmail": "ma@gmail.com",
      "rating": 5,
      "comment": "this is soo good",
      "isApproved": false,
      "createdAt": "2026-07-25T14:43:34.157Z",
    }
  ]
}
```

```
"updatedAt": "2026-07-25T14:43:34.157Z",
  "__v": 0
}
]
}
```

Response Data Schema

Field	Type	Description
success	Boolean	Request status (true/false)
count	Number	Total number of reviews returned
data	Array [Object]	Array of review objects
data[]._id	String	Review ki unique ID
data[].productId	String	Associated product ID
data[].customerName	String	Reviewer ka naam
data[].customerEmail	String	Reviewer ka email
data[].rating	Number	Given rating value
data[].comment	String	Review text
data[].isApproved	Boolean	Review approval status (admin panel feature)
data[].createdAt	String (ISO Date)	Timestamp when review was created

Field	Type	Description
data[].updatedAt	String (ISO Date)	Timestamp when review was last updated

Error Responses

404 Not Found (Product ID missing or invalid)

```
{
  "success": false,
  "message": "No reviews found for this product ID"
}
```

500 Internal Server Error (Server issues)

```
{
  "success": false,
  "message": "Internal server error"
}
```

3. Get All Fake Reviews

Endpoint Details

- **URL Path:** /ogaglow/fake-reviews/getAllFakeReviews
- **HTTP Method:** GET
- **Content-Type:** application/json

Response Structure

Success Response (200 OK)

```
{
  "success": true,
  "reviews": [
    {
      "_id": "6a00ee0797c3247e3c139b8a",
      "name": "Wholcure",
```

```
{
  "email": "wholcure@gmail.com",
  "comment": "fgdfgdfgdfgdg",
  "image": null,
  "createdAt": "2026-05-10T00:00:00.000Z",
  "__v": 0
}
```

Response Data Schema

Field	Type	Description
success	Boolean	Request status (true/false)
reviews	Array [Object]	Array of review objects
reviews[]._id	String	Review ki unique Mongo ID
reviews[].name	String	Reviewer ka naam
reviews[].email	String	Reviewer ka email address
reviews[].comment	String	Review content/text
reviews[].image	String null	Profile/Review image URL (agar available na ho toh null)
reviews[].createdAt	String (ISO Date)	Creation timestamp

Error Responses

500 Internal Server Error (Server issue)

```
{
  "success": false,
```

```
"message": "Failed to fetch fake reviews"
}
```

4. Contact Us

Endpoint Details

- **URL Path:** /ogaglow/contact-us
- **HTTP Method:** POST
- **Content-Type:** application/json

Request Body Payload

Client/App se ye JSON body pass karni hogi:

```
{
  "name": "Jane Doe",
  "email": "jane@example.com",
  "subject": "Product Inquiry",
  "message": "I would like to get more information regarding bulk pricing."
}
```

Payload Schema

Field	Type	Required	Description
name	String	Yes	Contact form submit karne wale ka naam
email	String	Yes	Contact karne wale ka email address
subject	String	Yes	Query ka topic ya subject line
message	String	Yes	User ka detailed message/query

Expected API Responses

Success Response (201 Created / 200 OK)

```
{
  "success": true,
  "message": "Your message has been submitted successfully",
  "data": {
    "_id": "6a64de821f8bc44ace123456",
    "name": "Jane Doe",
    "email": "jane@example.com",
    "subject": "Product Inquiry",
    "message": "I would like to get more information regarding bulk pricing.",
    "createdAt": "2026-07-25T19:50:00.000Z"
  }
}
```

Error Responses

400 Bad Request (Validation failure or missing required fields)

```
{
  "success": false,
  "message": "All fields (name, email, subject, message) are required."
}
```

500 Internal Server Error (Server issues)

```
{
  "success": false,
  "message": "Failed to send message. Please try again later."
}
```

5. Get Contact Information Settings

Endpoint Details

- **URL Path:** /settings/contactinfo
- **HTTP Method:** GET
- **Content-Type:** application/json

Response Structure

Success Response (200 OK)

```
{
  "success": true,
  "data": {
    "_id": "6a58032c52eba8c8ceb3d1f3",
    "headOffice": {
      "city": "Karachi",
      "address": "Sharah-e-Faisal, Sindh"
    },
    "emails": {
      "primary": "wholcure@gmail.com",
      "support": "wholcure@gmail.com"
    },
    "subOffices": [
      {
        "_id": "6a58035e52eba8c8ceb3d1f9",
        "city": "Hyderabad",
        "address": "Qasimabad, Sindh"
      }
    ],
    "phoneNumbers": [
      {
        "_id": "6a58037052eba8c8ceb3d200",
        "label": "ogaglow",
        "number": "+92 321 3270507"
      },
      {
        "_id": "6a58038052eba8c8ceb3d209",
        "label": "Wholcure",
        "number": "+92 328 2296963"
      }
    ],
    "createdAt": "2026-07-15T22:01:16.259Z",
    "updatedAt": "2026-07-15T22:23:33.636Z",
    "__v": 0
  }
}
```

```
}
```

Response Data Schema

Field	Type	Description
success	Boolean	Request status (true/false)
data	Object	Main contact details object
data._id	String	Settings document ID
data.headOffice	Object	Head office city aur address
data.emails	Object	Primary aur support email addresses
data.subOffices	Array [Object]	Sub-offices ki list
data.phoneNumbers	Array [Object]	Phone numbers labeled by brand/department
data.createdAt	String (ISO Date)	Creation timestamp
data.updatedAt	String (ISO Date)	Last update timestamp

Error Responses

404 Not Found (Agar settings configured na hon)

```
{
  "success": false,
  "message": "Contact info settings not found"
}
```

500 Internal Server Error (Server issues)

```
{
  "success": false,
  "message": "Failed to retrieve contact information"
}
```

6. Get Brand Features

Endpoint Details

- **URL Path:** /ogaglow/brand/brand-features
- **HTTP Method:** GET
- **Content-Type:** application/json

Response Structure

Success Response (200 OK)

```
{
  "success": true,
  "data": {
    "_id": "6a1c5f3ab89d1da19ba7649b",
    "__v": 0,
    "card1": [
      {
        "title": "Traditional formulation",
        "description": "It is modelled around age-old Indian Ayurvedic ingredients such as neem, turmeric, tulsi, amla & bhringraj — meant for daily use.",
        "_id": "6a1c63fa1a6c6a4d8758cc39"
      }
    ],
    "card2": [
      {
        "title": "Organic leaf botanical",
        "description": "The focus is primarily on plant extracts and herbal actives, with aloe vera as a flagship base ingredient for hydration and soothing care.",

      "Highlights and benefits of the ingredients on each product.",
      "Combines the benefits for skin and hair care.",
      "Ramp up your morning routine with our selections of items."
    ],
    "_id": "6a1c63fa1a6c6a4d8758cc3c"
  },
  {
    "mainHeading": "Rooted in Ayurveda. Designed for today",
    "para": "We marry ancient approach with contemporary textures airy consistencies, ingredient transparency, and a ritual you'll actually follow through.",
    "_id": "6a1c63fa1a6c6a4d8758cc38"
  }
],
"createdAt": "2026-05-31T16:18:02.409Z",
"updatedAt": "2026-07-15T23:16:36.226Z"
}

```

Response Data Schema

Field	Type	Description
success	Boolean	Request status (true/false)
data	Object	Brand features main document object
data._id	String	Document unique ID
data.info	Array [Object]	Main heading aur paragraph details
data.card1 to card3	Array [Object]	Individual feature cards (title & description)
data.card4	Array [Object]	Feature card with additional bulletPoints array
data.createdAt	String (ISO Date)	Creation timestamp
data.updatedAt	String (ISO Date)	Last update timestamp

Error Responses

404 Not Found (Agar brand features configured na hon)

```
{
  "success": false,
  "message": "Brand features not found"
}
```

500 Internal Server Error (Server issues)

```
{
  "success": false,
  "message": "Failed to retrieve brand features"
}
```

}
